Reno Public Meeting  
October 4, 2001

DAYTON McDONALD: Dayton McDonald.

OCT 04 2001

20 My name is Dayton McDonald. I reside at 865  
21 Zolezzi Lane. I wanted to come and state my opposition  
22 and tell you why.

23 I've lived in Reno for 42 years. I was  
24 raised in Bishop before that, I lived in Death Valley for  
25 a year near that area where they have the site where they

18

1 want to store it.

2 The thing that really -- I'm opposed to more  
3 than anything is the half-life of that material is 10,000  
4 years. If one drop got in our water supply, that would  
5 be the end of our water supply for 10,000 years, and to  
6 get it down to the site, it would have to come over  
7 Highway 80. What an opportunity for a terrorist to cause  
8 a wreck. They had a train in Boston in a trench,  
9 incidentally, that caught on fire with the waste, and  
10 remember they said how safe it was. I don't think it's  
11 that safe, and I don't want it around here.

12 Thank you.
